- ASA World Championships Women's Street Final: Fairplex in Pomona, Pomona (9/10/2004)

**How Ranking is calculated**

In 2004, points were calculated on a 52-week period, taking only the points earned at the top five (5) events to date for vert and four (4) events for street (or less if a skater had been to less than that number of events). Once a skater had been to more than the number of events factored in rankings, the lowest point totals earned at events were dropped (e.g. if a skater had competed in six (6) vert events, the one (1) lowest point totals of any event over the last 52-week period were eliminated). The ASA World Championships was worth double points. Year end rankings (the last rankings before the World Championships) only factors in events from the current season plus the previous year's World Championships regardless of the 52-week period.
